AUTOMATED SUBTITLE FILE QC SERVICE

Automatic service for checking industry standard closed caption and open subtitle files

Isis Subtitle File QC is a Windows based software application for automatically quality checking industry standard closed caption or open subtitle files. It has a number of options that include multiple folder configurations and auto correct of common file problems. The application runs as a Windows service and will automatically process any file that appears in the 'Source' folder. Files are then moved to either a 'Pass' or 'Fail' folder and a report created in a Text or HTML format.

The application includes a comprehensive file viewing capability that includes displaying the caption file text, previewing a rendered on-screen view (with correct positioning and justification) and viewing the caption Hex data. It will prove useful to anyone involved with the creation, editing or processing of closed caption and subtitle files for broadcast, DVD or web delivery.
